“It (our wedding) was a night that we’ll always be proud of. For all the planning we’d done, between the caterers, tailors, hotel coordinators, drivers; it was a great relief to deal with only one guy when it was time to cut a rug. Speaking of which, I’ll always remember the sight of family, some of them quite older, getting their groove on. I had no idea that they could even do that!”

“Sean had a great way of putting us at ease over a potentially anxious time. He was really attuned to what we prefer to hear and what made sense as to a flow of events. I appreciated his willingness to go outside of what a “conventional” ceremony and reception. At the same time, he seemed to be sincere when offering suggestions but not in some heavy-handed sort of way. All around, the music part of the night was another part of our wedding that seemed to go off without a hitch. Kudos.”

“I couldn’t dream of a complaint. I was referred to Sean through a colleague and, even though I gave him a couple weeks notice, he provided the right sounds for our banquet. Our clientele is a pretty diverse demographic so I think he made the right suggestion in playing mostly classics. After all, who doesn’t love ‘My Cherie Amour’?”
